Hello,

Thank you for being interested in buying my 2004 Lincoln Navigator. It has 57,700 miles. VIN: 5LMFU28R54LJ17941. The vehicle is registered on my name and has a clean US title (no lien). It is in great condition, no dents or scratches. It was always garaged and the regular maintenance was done in time. It wasn't involved in any accident and has never suffered any kind of damage. Also this is a non-smoker car.

I'm an US Air Force Lieutenant currently stationed in Eielson Air Force Base getting ready for Iraq so I can't arrange a viewing because I can't leave the base. Eielson Air Force Base is a United States Air Force base located approximately 26 miles southeast of Fairbanks, Alaska. I can have the car delivered to your address in about 4-5 days. The car is already at our Military Logistic Department crated and ready to go.

The car comes with all the documents that you need to register it in your name including transferable title, bill of sale in your name, car's manual. The final price is \$3,500.00 including shipping.

Since we can't end this deal face to face I decided to make this transaction through eBay Vehicle Protection Program. If you are not aware of this program, you should know that it will allow you to test drive and inspect the car before paying me. You will have a 5 days inspection period to decide whether you want to keep the car or not before they release the funds to me. If you don't know how does the eBay Vehicle Protection Program works please let me know so I can help you. I used it several times and everything was perfect.

I don't want to offend you, but the car is priced for a quick sale, so please, if you intend to apply for a loan or financing do not reply to this message!

Look forward to hearing back from you.

First of all I will need the following details from you: Full Name and Full Shipping Address. After I will receive the details from you, I will forward them to eBay. They will process your info and send us both the invoices. In the invoice you'll have the instructions on how to make a refundable payment. After they will receive and secure your payment, eBay will contact me and i will start the shipping process imediatly. You will send the money to eBay and as soon as the payment is confirmed they will notify me to proceed with the shipping. I will ship the car, you will receive it and you will have 5 days for inspection, both the car and the paperwork and the option to accept or reject the car. The inspection time period will begin as soon as you sign for receiving the car at your requested address. During all this time eBay will hold the money into a trust account. So, this is not a blind transaction, you can see the car before decided to buy it.

If by any reason the car is not as described, or if you find any problems with it I will pay for the returning fees. I'm sure it won't be the case because it's a state of art looking and working vehicle.

I apologize if it seems like I'm pushing on this deal but I really want to be sure everything is clarified before any further steps. Please, let me know if some of the terms does not feet you or if you have other queries.

If you wish to make the transaction, please send me the necessary info (complete name and full shipping address) so that we can proceed.

I look forward to hear from you.
